Kurniawan Eko Wasono

IT Application Lead at Garasi.id

Jakarta, Jakarta, Indonesia

Summary

Love to solve a problem with code

Experience

Garasi.id

IT Application Lead

September 2021 - Present (5 years 2 months)

South Jakarta, Jakarta, Indonesia

I am responsible for ensuring the creation of high-quality code and systems. I report directly to the CEO and serve as the leader of the development team. In addition, I hold the role of the head of the technology department, overseeing various aspects of our technical operations. My skills include expertise in MongoDB, Laravel, and React.js.

Alterra

Software Engineer

May 2018 - August 2021 (3 years 4 months)

Greater Jakarta Area, Indonesia

I am responsible for performing system maintenance, bug fixing, and problem-solving for the operational team. In addition, I develop new features for the existing system. I work closely with Quality Engineers to ensure the creation of high-quality systems. I analyze partner requirements and outline a high-level workflow for new features based on their needs. Moreover, I serve as a Lead Software Engineer, overseeing team tasks and addressing requests from commercial teams, operational teams, and partners. At other times, I act as a Senior Software Engineer, assisting the Lead Software Engineer in designing system requirements.

AIMSIS

Junior Web Developer

May 2017 - April 2018 (1 year)

Jakarta, Jakarta, Indonesia

I am responsible for maintaining the AIMSIS system, structuring student report cards, inputting student grades, processing and calculating student grade data, adding new features to the AIMSIS system.

I also contributed to the creation of a new student registration system. I am responsible for creating a dynamic and responsive frontend system.

Education

Universitas Negeri Semarang

Bachelor of Education (B.Ed.), Physics
